## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. Fuller and J. Baker, Jr. on 3/30/2006.

The application has been amended as follows:

1. Claims 53 – 57, 72 and 73 are canceled.
2. Claim 1. A flow-through fluid analysis system for detecting an analyte in a fluid flow, comprising:

a sensor array having a first face and a second face, the sensor array including one or more first sensors located on the first face and one or more fluid channels extending from the first face to the second face, at least one of the first sensors being located at a first position in the sensor array in contact with the first face of the sensor array, the one or more first sensors being configured to generate a response upon exposure of the sensor array to at least one analyte in a fluid flow ;

[a fluid flow system] means for introducing a fluid flow containing an analyte to the sensor array, such that upon introduction of a fluid flow to the sensor array, including one or more first sensors located on the first face and one or more fluid channels extending from the

first face to the second face, a pressure differential is created and maintained between the first and second faces of the sensor array; and

a processor configured to receive the response generated by the one or more first sensors and to process the response to detect at least one analyte in a fluid flow.

***Allowable Subject Matter***

Claims 1 – 52, 66 – 71 and 74 – 77 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 27, 66 and 74, the cited prior art neither teach nor fairly suggest an apparatus and associated method of using the apparatus incorporating the claimed sensor array and channel/pore structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian J. Sines whose telephone number is (571) 272-1263. The examiner can normally be reached on Monday - Friday (11 AM - 8 PM EST).
